ZTH Notes for 7/6 call with Michael Orman

- Property tax (unless land purchase) and overhead assumed to be zero, insurance negligible, per section 2.4.2 (page 80) in new SCR chapter
- Administrative charges should follow equation 2.69 in cost manual SCR chapter – see page 80
- Catalyst replacement should include only 16k or 25k, not both per vendor email. 10k for crane should only be included if they show that crane will be required
- Catalyst life of 3 years seems extremely low for gas fired application, per page 29 of manual SCR chapter
- Single vendor quote is inadvisable, should obtain 3 to avoid outliers (use lowest reliable quote)
- Could debate other line item direct annual costs – facility needs to produce written basis for each

Joe,

Added you in case you can join.

-Michael
